

Iteration Plan

Revision History

AUTHOR	DATE	DESCRIPTION
Pertile Gian Marco	12/03/2020	Initial Release

1.1 Objectives

[Define the purpose and scope of the iteration] The purpose of this iteration is to create a functioning web application. At the end of this iteration, users should be able to:

- Create an account and login to the web application.
- Enter the search criteria for the calculation of an agricultural yield.
- Ask to see detailed information on agricultural yield.

1.2 Use Cases

[Identify the use cases that define the functionality being implemented during this iteration. Some or all of the scenarios in the use case may be implemented.] The following use cases are involved in this iteration:

- UC2: Create Customer Account – The basic flow of this use case will be implemented.
- UC3: Display Field Info – The basic flow and a few of the alternate flows in this use case will be implemented.
