1 Introduction

The SF-Agriculture application allows users a simple interface to access their account information from any device. This document will provide instructions for using the application to view your balance, view recent transactions and view the locations of the fields to be watered.

2 Quick Start Guide

1. Touch the SF-Agriculture icon in the device menu. The login screen will appear.

2. Enter your email and password.

3. Tap the Sign In button.

4. Your current land and crops will be displayed.

3 System Requirements

The SF-Agriculture application must be installed on a Windows, iOS or Linux compatible device. Consult the system documentation for installation instructions.
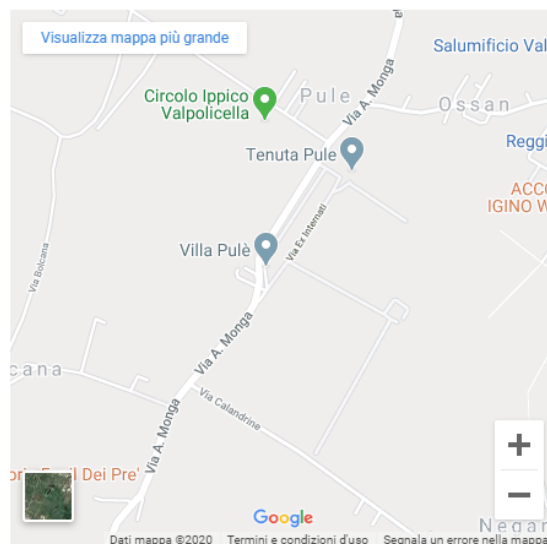

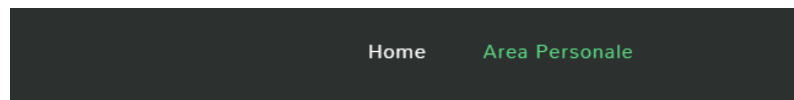

4 Main Scenarios of Use

4.1 View Recent Transactions

1. Tap the SF-Agriculture icon in your device menu. The login screen will be brought up.
2. Enter your E-Mail and Password.
3. Tap the Login button.
4. Tap 'History' at the bottom on the screen.

4.2 View your land

1. Touch the SF-Agriculture icon in the device menu. The login screen is displayed.

2. Enter your E-Mail and Password.

3. Tap the Login button.

5 Troubleshooting

5.1 Missing or Incorrect Password or E-Mail

A message will be displayed if incorrect login information is entered. Try again with the appropriate credentials to log in to sf_agriculture.com.
In case of problems, retrieve the appropriate login information directly from the SF-Agriculture website.
